RULE CATEGORIES

CATEGORY	TITLE - DESCRIPTION	PAGE
01	GENERAL PROVISIONS These rules contain provisions that are general in nature and that augment the content of other rules.	1
02	PERMITS Rules that specify procedural requirements for Authorities to Construct (A/C) and Permits to Operate (P/O).	2
03	NEW SOURCE REVIEW (NSR) Rules that set forth the requirements that proposed new or modified stationary sources must meet before construction can take place in nonattainment areas. These requirements are in addition to those specified by other rules and include use of BACT and the offset of emissions.	5
04	INDIRECT SOURCE REVIEW (ISR) Rules that reduce emissions associated with facilities, such as shopping centers, that generate or attract mobile source activity. ISR rules are in the developmental stage, but are expected to have titles similar to NSR rules.	6
05	PRACTICE AND PROCEDURE BEFORE HEARING BOARD REGARDING PERMITS The Health and Safety Code authorizes anyone to petition the district Hearing Board to hold a hearing on a permit application. The related rules contain procedural requirements to be followed by the Hearing Board and parties appearing before it.	7
06	TRIP REDUCTION AND CONTROL OF VEHICLE EMISSIONS Rules that reduce motor vehicle emissions associated with existing facilities such as factories, by reducing motor vehicle miles traveled and numbers of trips.	8
07	PREVENTION OF SIGNIFICANT DETERIORATION (PSD) Rules that apply new source review requirements to sources in air quality attainment areas.	9
08	PROCEDURE BEFORE THE HEARING BOARD REGARDING VARIANCES Rules that prescribe procedural standards for the APCD or AQMD Hearing Board and for petitioners who appear before the Hearing Board seeking variances from prohibitory and other rules.	9

09	PARTICULATE MATTER - PROHIBITIONS	10
	Rules that regulate processes and activities which cause the emission of particulate matter.	
10	VISIBLE EMISSIONS - PROHIBITIONS	11
	Rules that regulate sources that have visible emissions.	
11	OPEN BURNING - PROHIBITIONS	12
	Rules that regulate agricultural, forest management, and many other types of open burning.	
12	VOC/HYDROCARBONS - PETROLEUM - PROHIBITIONS	13
	Rules that limit and otherwise regulate hydrocarbon vapor and gas emissions from the petroleum production, refining, and transportation industries.	
13	VOC/HYDROCARBONS - COATINGS - PROHIBITIONS	15
	Rules that regulate the VOC content of coatings and otherwise control VOC emissions from coatings.	
14	VOC/HYDROCARBONS - MISCELLANEOUS SOURCES - PROHIBITIONS	17
	Rules that regulate VOC or hydrocarbon emissions, but which are not listed in either of the two immediately preceding rule categories.	
15	NITROGEN OXIDES (NO_x) - PROHIBITIONS	20
	Rules that limit NO _x emissions from combustion sources.	
16	SULFUR COMPOUNDS - PROHIBITIONS	22
	Rules that regulate sulfur emissions (SO _x , H ₂ S, H ₂ SO ₄ , etc).	
17	CARBON MONOXIDE (CO) - PROHIBITIONS	23
	Rules that regulate CO emissions from combustion sources.	
18	TOXIC AIR CONTAMINANTS (TAC) - PROHIBITIONS	24
	Rules that limit emissions of toxic substances and that were developed based on state or local initiatives.	
19	MISCELLANEOUS - PROHIBITIONS	25
	Prohibitory rules that do not fit in any of the above categories.	
20	COMPLIANCE/ENFORCEMENT	26
	Rules that pertain explicitly to the enforcement of the prohibitions and requirements in other rules.	
21	EMERGENCIES	27
	Rules that present districts' emergency episode plans. Such plans set forth actions to be taken to prevent air pollution from reaching levels that could endanger the public.	
22	ORDERS FOR ABATEMENT	27
	Rules that set forth procedural requirements to be followed before the district Hearing Board by all concerned parties in matters involving abatement orders.	
23	FEES	28
	Rules that prescribe fees to be collected by APCD's and AQMD's. The ARB staff's practice has been not to review districts' fee rules. However, we do review fee rules that are state mandated.	

24	NEW SOURCE PERFORMANCE STANDARDS (NSPS)	28
	Rules that apply federally mandated performance and equipment standards to new stationary sources. Nearly all districts adopt NSPS by reference.	
25	NATIONAL EMISSION STANDARDS FOR HAZARDOUS AIR POLLUTANTS (NESHAP)	33
	Rules that apply federally mandated equipment and performance standards to stationary sources of toxic air contaminants. Nearly all districts adopt NESHAP subparts by reference.	
26	MAXIMUM ACHIEVABLE CONTROL TECHNOLOGY (MACT) STANDARDS	35
	Rules promulgated by the U.S. EPA to reduce hazardous pollutant emissions from existing and new sources. ARB staff reviews these rules as they are proposed and promulgated by the U.S. EPA. Districts may or may not use MACT standards as the basis for rules they adopt or amend.
